

HABITAT BUILDER

Sharing the vision of a safe and stable place to call home - for everyone.

A volunteer helps repair one of many homes in need of tender loving care.

Ana Has A New Roof And A Safer Home Thanks to You!

Now every room in her home is liveable and safe for years to come.

Ana has been living in her 100-year-old home for over 35 years! As with many older homes, the roof was in serious disrepair.

Over the years, Ana's husband Steve, a veteran, and their son, would do their best to repair their home. Unfortunately, their roof became a lost cause. It leaked during the rainy season, which damaged their ceiling and exposed them to toxic mold.

Their family of five was at risk of losing the roof that kept them safe from the elements, but then you came in! After hearing about SGV Habitat's home repair program that you make possible, they were able to get the help they so desperately needed.

"I am now able to use all the rooms in my house now that the roof doesn't leak. My family and I are really happy with our new roof!"

- Ana (Home Repair Partner)

After just one week of repairs, their roof is safe and secure. **Thanks to you, they are now worry-free when it comes to their respiratory health.**

With your continued support, this century-old home and many others will serve their families as safe and stable shelter for generations to come!

Thanks to you...

Help More Families Like Ana's

When a home is in disrepair, it becomes unsafe. By donating today, you're helping more families across the San Gabriel Valley stay in their safe and stable home for years to come! **Change Lives Now: <https://bit.ly/SGVGive>**

What's New?

- Construction is almost completed at the Waverly Accessory Dwelling Unit in Pasadena!

■ **Waverly ADU Underway:** April marked the beginning of construction at the Waverly ADU in Pasadena. As of July, the small home is nearly complete! This home is possible through a partnership between the Pasadena Community Foundation, the City of Pasadena, and Union Station Homeless Services.

Thanks to you and our construction volunteers, this ADU will soon house people transitioning out of homelessness to independence!

Project Updates

Letter From Bryan

Hello Friend,

As the new executive director of San Gabriel Valley Habitat for Humanity, I truly believe we are only as strong as the company we keep. I can say with confidence that **I am surrounded by the best people, with the biggest hearts, and that includes you, our supporters.**

As you continue to help us grow, our number one goal is to make sure everyone has access to safe and stable housing. **With that - you will always be our primary partner in building stronger families and a stronger San Gabriel Valley. Thanks to you, we can make the world a better place, one home at a time.**

Bryan Wong

Executive Director | San Gabriel Valley Habitat for Humanity

The Little Sedan That Could

After 14 years of service, this small sedan is on its way to serve even more families

Purchased in 2007, this Honda Civic provided reliable transportation for two first-generation students from an immigrant family. Recently, its owner decided it should continue its service to other families by donating it to the Cars for Homes program.

After 182,918 miles and two grad school degrees later, Steve and Vanessa wanted to honor their grandmother in a way that reflected her mindset of giving back.

“Her memory lives on in the homes that will help families thrive for generations to come.”

- Steve (Cars for Homes Donor)

Each vehicle, running or not, donated to Cars for Homes, helps families build or repair their own home. Learn more about this car’s story and how your old vehicle can transform lives by visiting our website: <https://bit.ly/SGVCars>

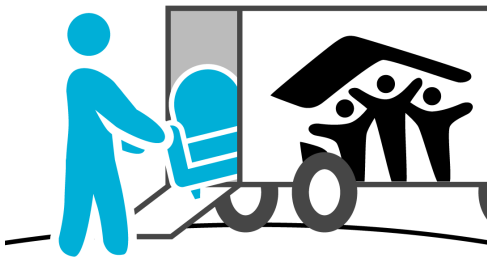

Above: Vanessa and Josefine standing next to the 2007 Civic that their brother and uncle Steve donated after 14 years of service.

“We are delighted to know that more families will benefit from the over 14-year-old four-door sedan I so proudly purchased so many years ago.”

- Steve, Cars for Homes Donor
